

Ghufran Aslam

Merval Drive, Clareview, Limerick, Ireland

K00290558@student.tus.ie

Dear Hiring Manager,

I am a Software Development student at the Technological University of the Shannon, graduating in 2026. My experience in AI, backend systems, and scalable applications aligns closely with Stripe's focus on reliability and technical excellence.

I manage a MACE Circle K store, leading staff and operations for over two years. This role has strengthened my leadership, communication, and problem solving skills qualities I bring to every engineering project.

I want to join Stripe to learn from world-class engineers and contribute to building dependable systems that support businesses globally.

Thank you for considering my application.

Sincerely,

Ghufran Aslam
